

Smart phones & tablets security

1. Download only from trusted sites.
2. Read reviews about the app before downloading it.
3. Use a strong passphrase or 6 digits pin instead of 4 digits.
4. Ensure that the device automatically locks itself if not used for more than 30 seconds.
5. Turn off automatic WIFI connections.
6. Check the permissions the app requests.
7. Ensure downloading and installing all operating system and app updates.
8. Turn off Bluetooth and NFC when not required.
