

Indian Cyber Institute

(A Cyber vertical of Cognizance Education Pvt. Ltd.)

Electronic Crime Scene Management (Training the First Responder)

Capacity building of First Responders to understand and combat the growing challenges posed by Cyber Space. With ever-growing cyber space every incident or crime carries cyber facet, which serves as medium or potential source of evidence. Thus it is imperative to follow a scientific method for search and seizure of electronic devices carrying digital data. Workshop on Search & Seizure in Electronic Crime Scene Management (Training the First Responder) is specially designed to provide hands-on training on identification, search, seizure and documentation of electronic devices serving as potential evidence.

Workshop Suitable For:

Personnel working with or aspirants who wants to pursue a career in Physical Security, Fraud Investigations, Forensic Accounting Unit, Fraud Control Unit and IT Security. New entrants in the above domain are also welcome. Every participant takes away sample anti-static tool kit with reference reading material.
